**REJU-EYE**

Plasma technology

## REJU - EYE

Plasma technology

### Working principle

The instrument is equipped with modern advanced over-current, over-voltage regulation system, highly protect the devices use time and stability.

Reju-eye plasma working principle similar as CO2 laser beauty equipment, using the latest high efficient power conversion material and chip control technology. Once spots removal a few millimeter distance from the skin, device release plasma temperature over 2000°C, carbonation bad spots on the skin to keep disappear permanently.

### Spot removal

Removal of all types of spots and pigmentations such as warts, sebaceous spots, granulomas, fat, corns, freckles, etc.

### 2 led lights

### Lifting

Needle close the skin fire become smaller, point to point leave some space for heat dissipation. Needle do not have to touch skin. Could use for eyelid lifting, skin lifting and scars remove, etc.
